General Manager Jarvis Frank from the CHS Elevator would like the Commissioners to consider contacting BNSF concerning hazardous RR Crossing and request that they install caution lights. Mr. Frank. Mr. Frank was told that a request must come from the road authority, beings Harvest Road is a county road Mr. Frank is making a formal request. Mr. Frank explained that if a trail is coming from the west there is a blind spot because of the angel of the road – vs- tracks. There have been (2) wrecks between a truck and a train. One in 2017 and the most recent January 27, 2025, luckily neither incident had a fatality. Commissioners will contact BNSF and see what can be done. BNSF contact: Mike Mkkay.

Ollie & Powell – gave updates on the fairgrounds. Discussed financing the fencing, Commissioners agreed the expense can be part of the no interest loan from the county.
